SPCC and NPDES

# IBC 2000i™

## INTERMEDIATE BULK CONTAINMENT MADE EASY.

ENPAC Corporation's new integrated IBC 2000i gives intermediate bulk container users more versatile spill containment. It fits more than 99% of all IBC dispensing units and features a large sump capacity of 1457 litres, exceeding EPA 40 CFR 264.175 regulations. The unit also comes with an integrated 22 litre pail holder for quick and easy dispensing.

The IBC 2000i is the only one-piece, lightweight, 100% polyethylene IBC spill containment unit that is forkliftable and nestable for convenient shipment and storage, and reduces shipping costs. The polyethylene construction will not rust or corrode or have adverse reactions with chemicals. An optional drain is available.

Typical installation for IBC tank
