

water chillers

NATURE'S WATER:
ALWAYS FRESH
AND CHILLED

- water chillers

water chillers

Nature's water on demand, always fresh and chilled.

Enware's Waterware range incorporates proven water technology with water chillers that make it all so easy — in a choice of attractive free-standing or under-counter models that deliver quality water in a range of capacities.

attractive, free-standing water chillers

Clever and practical free-standing chillers deliver cool, fresh, mains pressure drinking water at the press of a button.

- Up to 18 litres chilled water per hour
- Hygienic, polished stainless steel tops designed for rapid draining
- Adjustable levelling feet
- Stainless steel storage tank
- FDA approved internal pipework
- Environmentally friendly R134A refrigerant

barrier free drinking fountains

Colour coding for media identification on handles, buttons and outlets follow the recommendations of DIN EN 13792. Tough, corrosion-resistant, coloured powder-coating makes the range suitable for the harshest laboratory environment. Specify the media type when ordering for correct colour identification and lubricant.
