

# HYDRUS2 COLD DN40 RADIO SYDNEY WATER

The HYDRUS2 Radio SW ultrasonic water meter provides accurate, maintenance free measurement with integrated radio communication specifically designed for Sydney Water MLIM compliance.

Its advanced ultrasonic technology provides long term stability, no moving parts, and reliable performance even in demanding conditions. The meter supports high resolution data, leak detection, backflow alerts, and robust diagnostics to enhance system visibility.

With IP68 protection it is suitable for both indoor and outdoor use, with its long battery life it will continue to function in a blackout, a wide dynamic range of up to R800 enables measurement of flow down to the level of drips, support for both horizontal and vertical installation and no need for calming sections. HYDRUS2 suits a broad range of commercial and industrial environments.

HYDRUS2 Radio SW is suitable for multi level buildings and modern infrastructure, it delivers communication reliability, operational flexibility, and a low TCO while being certified for Sydney Water MLIM.

## KEY FEATURES

- WaterMark certified on all sizes
- NMI approved on all sizes
- Higher performance than class 2 requirements
- Q1/Q3 (Dynamic range) up to R800
- Ultrasonic design minimises sedimentation
- Long-term stability under difficult conditions
- Horizontal and vertical installation
- IP68 permanent immersion (suitable for outdoor installation)
- U0 / D0, no need for calming sections
- No moving parts & no magnetic influence
- No measurement of air
- Integrated communications
- Battery lifetime up to 16 years
- Display with error and alarm codes including leakage detection
- Available in T50 (Cold Water) DN 20, 25, 32, 40, 50, 80, 100, 150, 200
- Available in T90 (Hot Water) DN 15, 20, 25, 32, 40

## PRODUCT CODE

EHM5040X2FR-SW HYDRUS2 COLD DN40 RADIO SYDNEY WATER

# HYDRUS2 COLD DN40 RADIO SYDNEY WATER

## TECHNICAL DATA

Check Valve	None
Couplings	2 flanges included
Strainer	No
Display Indication	LCD, 9-digit, additional symbols/display counter/unit
Values Displayed	Current Total Volume, Current Flow Rate, Remaining Battery Life, Error and Alarms, Software Version, Display Test
Maximum Temperature Safety	50°C
Minimum Medium Temperature Range	1°C
Dynamic Range (Q1/Q3) Horizontal	800
Dynamic Range (Q1/Q3) Vertical	400
Minimum Flow Rate Q1	20L/hr
Transitional Flow Rate Q2	32L/hr
Permanent Flow Rate Q3	16000L/hr
Overload Flow Rate Q4	20000L/hr
Accuracy Class	2
Inlet Connection	Oval Flange 40mm
Outlet Connection	Oval Flange 40mm
Battery Lifetime	Up to 16 years
Protection Class	IP68
Nominal Diameter	40
Interfaces	WM-BUS OMS Radio (R3, R4)
Radio	Yes
Frequency Band	434MHz
Sending Interval	R3: 14s, R4: 15m
Wired Pulse	No
Wired M-BUS	No
<b>Technical Notes</b>	
WM40207 AS3565.1 (WaterMark)	
NMI R49-1
