

Leva 80mm Sequential Basin Mixer 1/2 Turn Ceramic Disc - No Spout

The Leva range combines outstanding quality with functional, sleek design. For easy palm and wrist activated tapware, the LEVA 80 Sequential series delivers an extensive choice with greater control, particularly for arthritis sufferers. The sequential lever turns progressively from "off" to "cold" to "mixed". This enhances safety, reduces hot water consumption and potentially reduces risk of Legionella.

OPTIONS

Range of Enware spouts, showers and grab rails available
