WC Pan and Toilet Seat - Bariatric - White - Single Flap Seat - Stainless Steel

The Bariatric Pan is a specially designed floor standing toilet and is fitted with a seat that is dedicated for bariatric users. The Bariatric toilet pan with seat is secure to a person's weight up to 450kg and is ideal for use in public amenities, care facilities, health and correctional institutions where conventional pans might be insufficient. A standout point to Bariatric pan is that it has been independently tested to withstand a structural load of up to 1070kgs.

The toilet is constructed using durable and strong 304 grade stainless steel which is powdered coated in a clean gloss white to suit most decors.

The dimensions of the pan allow a bariatric commode chair can be placed over it without obstruction, if a commode chair is required. Single flap seat included. Supplied in P trap with an option for S trap conversion. Coved option available.

Australian Health Facility Guideline (AusHFG) Item Code: HYWC-002

PRODUCT CODES

WB-WCBARW	Standard
